

## INVITATION FOR TRAINING CERTIFICATION

**Subject:** Invitation and Agenda for Training & Certification on AMTEL Product Line.

**Dear Customer,**

We are glad to invite you for training on AMTEL Product Line. As you will see below we have organized the training and certification in three sessions of one day each covering our major product lines: 1) Access Control & Lobby Visitor System, 2) RFID Gate Entry & Asset Tracking systems and 3) Parking & Revenue control systems.

Although we recommend that your company and your technical personnel get certified in all the three product lines, you can actually select to participate in one, two or three days of training as per your requirements. The Access Control training is pre-requisite for any of the other two. Please make sure you or your representative have the access control pre-requisites covered before registering for RFID or Parking Training.

The number of trainee seats is limited so please fill out the registration form at your earliest convenience. If you have any question or concern please feel free to contact me on (305) 591-8200 Ext. 582 or email on [tom.a@amtelsecurity.com](mailto:tom.a@amtelsecurity.com) or contact Mr. Ashish Sharma, Head - International Operations at [ashish.s@amtelsecurity.com](mailto:ashish.s@amtelsecurity.com).

The training will be conducted in the venue as per the information attached. For your convenience, in addition to the information on the training venue, we have included optional information of nearby Hotels. Please feel free to contact these Hotels directly to make your reservations on time.

We look forward to serve you as our valued Dealer and Business Partner and will keep working to deserve your trust in AMTEL.

**Best Regards,**

Tom Anderson

**ABOUT AMTEL**

**AMTEL** with Head Quarters in Miami, Florida and branches in Asia and Latin America has hundreds of satisfied customers across the United States, Canada, Latin America, Middle East and Europe. We have been supplying systems to the industrial, commercial, municipal and institutional markets for over 35 years. We have a customer-based outlook that drives us and we pride ourselves in offering:

**State-of-the-art Technology** - With over 40% of our staff dedicated to Engineering and Development, we take technology seriously.

**Product Support** - From concept to pre-sales configuration design to installation drawings to post-sales tech support, we do what it takes to support our business partners in the implementation of solutions using AMTEL technology.

**Dealer Partner Network** - AMTEL has developed over the years a network of professional Dealers and System Integrators trained and certified at our factory to design, supply, install and service our advanced engineered solutions. We are invited to join our AMTEL business partner network as Dealer or System Integrator.
